Chinese character size test (CCST) data

Description:

The CCST data include anonymized demographic information, Chinese character recognition (CR), character size, reading ability, Chinese language exam scores, and item-leveled test data of 7459 primary school students.

CCST_data_norm.csv contains demographic information and character size variable.

CCST_data.csv contains more information.

The data were retrieved from https://osf.io/ktf5c/ on Aug 6, 2025. More information can be found in Li, et al. (2025).
